SPAIN IN TROUBLE.

The revolution in Spain is beginning to assume serious proportions. It is estimated that 25,000 persons have joined the Carlist movement. It is believed that if the Radicals co-operate with the partisans of Don Carlos, the revo-Intion will be successful. The government refuses to give any information relative to the insurrection. The reign of King Amadeus is not likely to prove a very tranquil one.

Ne-at-a-wah is Republican. At special election recently held, where the offices in controversy were thought to be of no political importance, she gave an increased majority for the Republican ticket, and at the general election next fall Ne-at-a-wah will double that majority.

LIBERAL STRATEGY.

The following dispatch to the Misson ri Democrat shows to what lengths the Liberals will resort to carry the Presidential election this fall, and to beat Grant:

"THE ARLINGTON, WASHINGTON, D C., April 18th, 1872.—Dear Sir: The undersigned have conferred with many representative soldiers throughout the country, and find a gener 1 o currence of opinion that the somers should raise their voice in protest against the further progress of the alarming disin-tegration of the Republican party which has taken place under the ad-ministration of General Grant. To effect this, the names of representative soldiers in the several States who hold these views are desired, for the purpose of being appended to a call for a Soldiers any Sailors' National Convention, to be held in New York City, in May proximo, which convention shall formally, by resolution or otherwise, call upon the Philadelphia Convention to nominate a candidate other than Grant, and will unite the party and lead it to victory.
